

## **A BEGINNER'S GUIDE TO AUTISM SPECTRUM DISORDER**

What does receiving a diagnosis of ASD mean?  
What are “Autistic Traits” and how do they impact people’s lives?  
What does the future hold for a person with this condition?

Our free workshop is specifically designed to answer these and other questions for anyone with a new interest in the subject (e.g., recently diagnosed / family / support network). Informal and interactive discussions, led by an individual diagnosed with ASD, provide insight into the realities of living with the condition.
